INDIANAPOLIS:

THURSDAY, JULY 5, 1855

A Pitiful Calumny. The Republican of Friday contains an article throwing out an insinuation against Governor Wright, which is truely contemptible. It intimates that the Governor had been bribed to surrender a citizen of Indiana to the authorities of Kentucky.

Some charges, corresponding with the base source from which they spring, are so utterly false and frivolous that they do not excite our indignation, and this is one of them .-We can only feel infinite contempt for the meanness of spirit, which could give currency to the calumny that a gentleman of pure morals and stainless integrity would, for a small sum of money, cover himself and his

If he retary's office, he would have found that everything was there which the Constitution and laws of the country require, and that the Governor, as a sworn officer, could not do etherwise than to surrender the person charged with crime to the authorities of the State where the crime was committed.

Gov. Wright has for six years been the Chief Executive of Indiana with honor and ous of the rights of her citizens than he. He has never surrendered one except when clearly required by law. But he will never shrink from obedience to the Federal Constitution, nor swerve in devotion to the Union. Years ago, the principles which guided him were eloquently expressed. What he said then, he is, we doubt not, ready to say now. This was his language
